

I am writing on behalf of K-Love (heard locally on 106.7 in central NC, including the Raleigh-Durham area). They play great songs and offer a family friendly alternative to the local stations. After a hurricane took out one of their towers, we switched the station to a local channel and I was shocked at the content. Imagine my dismay at the sexual content and inuendos while my 9 and 14 year olds were listening. K-love offers music, news and even local announcements that are "safe" and kid friendly. To remove them in favor of a LPFM broadcaster would be a great disservice to my kids and the community.
